Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/23/05 has been entered.

2. Examiner notes that, in view of Board of Appeal and Interference (BAI) decision, claims 1-14 were cancelled; claims 15-44 are pending for examination. In view of BAI opinion, the Affidavit filed 3/23/05 and the Terminal Disclaimer filed 5/23/05, claims 15-21 and 36-44 are allowed. Newly rejection cited are as stated below.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 22-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jago et al. (US. 5,938,607) and "Microsoft Exchange STEP BY STEP" (Microsoft, hereinafter).

5. Regarding claims 22-35, as previously rejected and affirmed by the BoAI that Jago discloses all limitations of claims 22-35 except automatically acknowledgement. Rather than reiterate the rejection *in toto*; examiner hereby incorporated the previous rejections and BAI opinion by references. Hence, with regard to claims 22-35, although, Jago's teaching does

Art Unit: 2143

include a capability of sending acknowledgement via e-mail, but it does not explicitly state that such capability is automatically applied. However, applying acknowledgement automatically was old and widely used in the art prior to applicant's invention was made. Particularly, in an e-mail messaging systems, for instance, Microsoft teaches an e-mail software, which could be implemented, in any computers environments or applications, including in Jago invention, without requiring any inventive step (see Microsoft page 94-95). Microsoft's teaching includes auto-reply feature, which has been used for automatically acknowledgement. The auto-reply feature comprises a dialog box for user to create any desirable messages to acknowledge incoming emails.

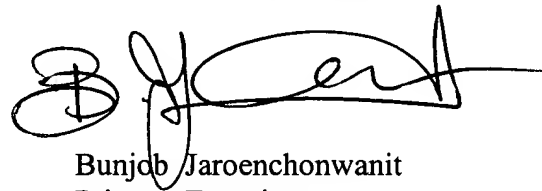

Thus, it would have been obvious to one of ordinary skill in the art at the time of applicant's invention was made to incorporate the auto-reply feature and/or the idea of the same to enhance Jago's e-mail capability, with the motivation, to enable responding without human intervention with Jago's system. Because elimination of human intervention would obviously saving cost while assuring clients' that the request has reached the designated destination, such as service center, or the like.
